Hi –

1. The performance of House Republicans on Wednesday was shameful. Jordan and Gowdy were particularly obscene. This was not just an attack on two public servants, it was an attack against Justice. It was an attack against Truth. It was an attack against Democracy. Republicans have become the Voldemort party; their motto is:
“There is no good and evil. There is only power.”
2. Scott Pruitt has got to go. His personal behavior is scandalous. His official policies are illegal and intolerable.
3. The practice of taking babies as hostages has got to stop. Do not try to appease the hostage-taker; that never works. He must be made to pay a high price for his crimes.
4. In particular, no wall unless Mexico pays. No US funds for any wall.
5. Larry Kudlow’s lies about the deficit are just ridiculous.
6. Provoking a global trade war is diabolical. Blaming the victims, e.g. Harley Davidson, is contemptible.
7. North Korea is *expanding* its production of enriched uranium. The #fakepresident got played. Yet he still thinks he’s the world’s greatest dealmaker.

... and so on. When are you going to realize that we have a serious and urgent problem? When are you going to do something?

Yours truly,

John L Denker
